<i>Fail Notes</i> 5-403.12 <i>Condensate drainage and other nonSEWAGE liquids and rainwater shall be drained from point of discharge to disposal according to LAW. [There is standing water in the basement. It is not across the entire floor, but a good portion of the floor has standing water, up to approximately 1/2 an inch deep. The owner said that he believes this is from condensation on/from the air conditioner, and leaking from the ice machine. He is unsure if the leaking from the ice machine is from a leak or the indirect plumbing not lining up correctly, or something else - which is why he has not done anything about it yet.]</i>						
51. Toilet facilities: properly constructed, supplied and cleaned.
52. Garbage and refuse properly disposed; facilities maintained.
